- Ground Cover

Name:	Spreading Sedge
Full Name:	Carex laxiculmis 'Bunny Blue' PBR
Leaf:	silvery blue green foliage, evergreen
Mature Size:	0.35m H x 0.35m S/Clump forming
Preferred Location:	Garden border/Ground cover
Likes:	Semi shade and rich, moist soil
Dislikes:	Dry soil and temperatures below -20°C
Grown in:	Ireland

Carex laxiculmis 'Bunny Blue' is a silvery blue evergreen sedge native to the United States. It is well suited for half shady moist garden borders or as ground cover. If the moisture levels are right it performs also well in full sun. It is moderately spreading, very disease and insect resistant and good winter hardy.
