<b>Name:</b>	<b>Ornamental Sedge</b>
<b>Full Name:</b>	<b>Carex oshimensis 'Everest' PBR</b>
<b>Leaf:</b>	<b>Linear, white striped leaves</b>
<b>Mature Size:</b>	<b>0.45m H x 0.45m S/Mound forming</b>
<b>Preferred Location:</b>	<b>Patio Container/Garden borders</b>
<b>Likes:</b>	<b>Well drained, light soil/Full sun to semi-shade/Sheltered</b>
<b>Dislikes:</b>	<b>Over watering and temperatures below -15°C</b>
<b>Grown in:</b>	<b>Ireland</b>

Carex oshimensis 'Everest', bred at FitzGerald Nurseries Ltd, is a variety from the well known Carex oshimensis 'Evergold'. It can be used the same as Carex oshimensis 'Evergold' as a container and patio plant or as a filler plant with bedding and specimen plants. The distinctive white striped foliage and the healthy growth makes Carex oshimensis 'Everest' also a superb ground-cover plant. It is easy to grow, low maintenance and forms a neat easily controlled mound. 'Everest' sets accents with its wonderful foliage colour for winter and summer arrangements – also in combination with Carex oshimensis 'Evergold' and Carex oshimensis 'Evergreen'.
