Carex oshimensis 'Everillo' is the latest new introduction at FitzGerald Nurseries after Carex oshimensis 'Evergreen' and 'Everest'. With its lime green leaves which turn golden yellow as the season progresses it adds a different touch of colour to your spring and autumn planter arrangements. It can of course also be used in your garden to brighten up those shady corners. Carex oshimensis 'Everillo' is an outstanding evergreen foliage plant and unique in its colour category.
